footnote:

1. The option of "automatic high beam control" requires that the vehicle has been equipped with "an interior rearview mirror with automatic anti-dazzle function and an exterior rearview mirror on the driver's side".
2. Optional "driving safety assist system" must be installed on the premise that the vehicle has been equipped with "internal rearview mirror with automatic anti-dazzle function and driver's side external rearview mirror".
3. Optional "autonomous driving assistance system" Pro" It is necessary to assume that the vehicle has been equipped with "internal rearview mirror with automatic anti-dazzle function and driver's side external rearview mirror".
4. Optional automatic parking assist system" Plus" It is necessary to assume that the vehicle has been equipped with "internal rearview mirror with automatic anti-dazzle function and driver's side external rearview mirror".
5. Optional "autonomous driving assistance system" Pro" Later "Cruise Control System" or "Active Cruise Control System" or "Driving Safety Assist System" will be replaced.
6. Selecting "Active Cruise Control" will replace "Cruise Control".
7. Optional "BMW Driving recorder" requires that the vehicle has been equipped with an "automatic parking assist system" Plus" and "interior rearview mirror with automatic anti-dazzle function and driver's side exterior rearview mirror" as a premise.
8. Optional "BMW i" Blue exterior design" is based on the premise that the vehicle has been equipped with "carbon black/ore white/sky gray" body paint.
9. "Driving safety assistance system" and "autonomous driving assistance system" Pro" Cannot be selected at the same time.

All optional equipment listed in this manual is factory installed. If you have any other requirements, please contact your local BMWSee authorized dealer for detailed accessories catalog.

■ Standard equipment □ Selected equipment—not available

* Exclusive customized combinations and suits. The configuration of "—Unavailable" is subject to the products on the market in China.

* i3 eDrive35L: DC fast charging time is based on180kWCharging power measured; AC charging time based on11kWCharging power measured.

* i3 eDrive40L: DC fast charging time is based on200kWCharging power measured; AC charging time based on11kWCharging power measured.

* Actual charging time depends on local power infrastructure and selected charging equipment, this time is for reference only.

* The "genuine leather" mentioned in the above information/extended leather/The "porous leather" seat material is composed of genuine leather and synthetic leather. The composition ratio and wrapping range of different seat materials of genuine leather and synthetic leather are different. The specific situation is subject to the actual products on the market in China. This manual only describes the color of the leather. Information, if you have any questions about the cortex composition ratio and wrapping range, please consultBMWAuthorized dealers.

* Vehicle mileage data is based onCLTCtest results based on comprehensive working conditions. Actual cruising range will vary depending on driving habits and operations, vehicle configuration, battery usage time and status, environmental and climate conditions and other factors.
