Mercedes-Benz

City, distance, freedom, departure

Use strength to carry your yearning

Use your almighty power to rush to the next mountain a

Consistent aesthetic design

Bloom, pioneering temperament

Full display, dazzling appearance

Walk freely and break the resistance of the wind

- The highly recognizable family-style bow body design, with 0.25Cd Ultra-low drag coefficient achieves excellent vehicle energy efficiency. The extremely sporty dive created by the bow posture makes people immersed in the racing of chasing the wind.

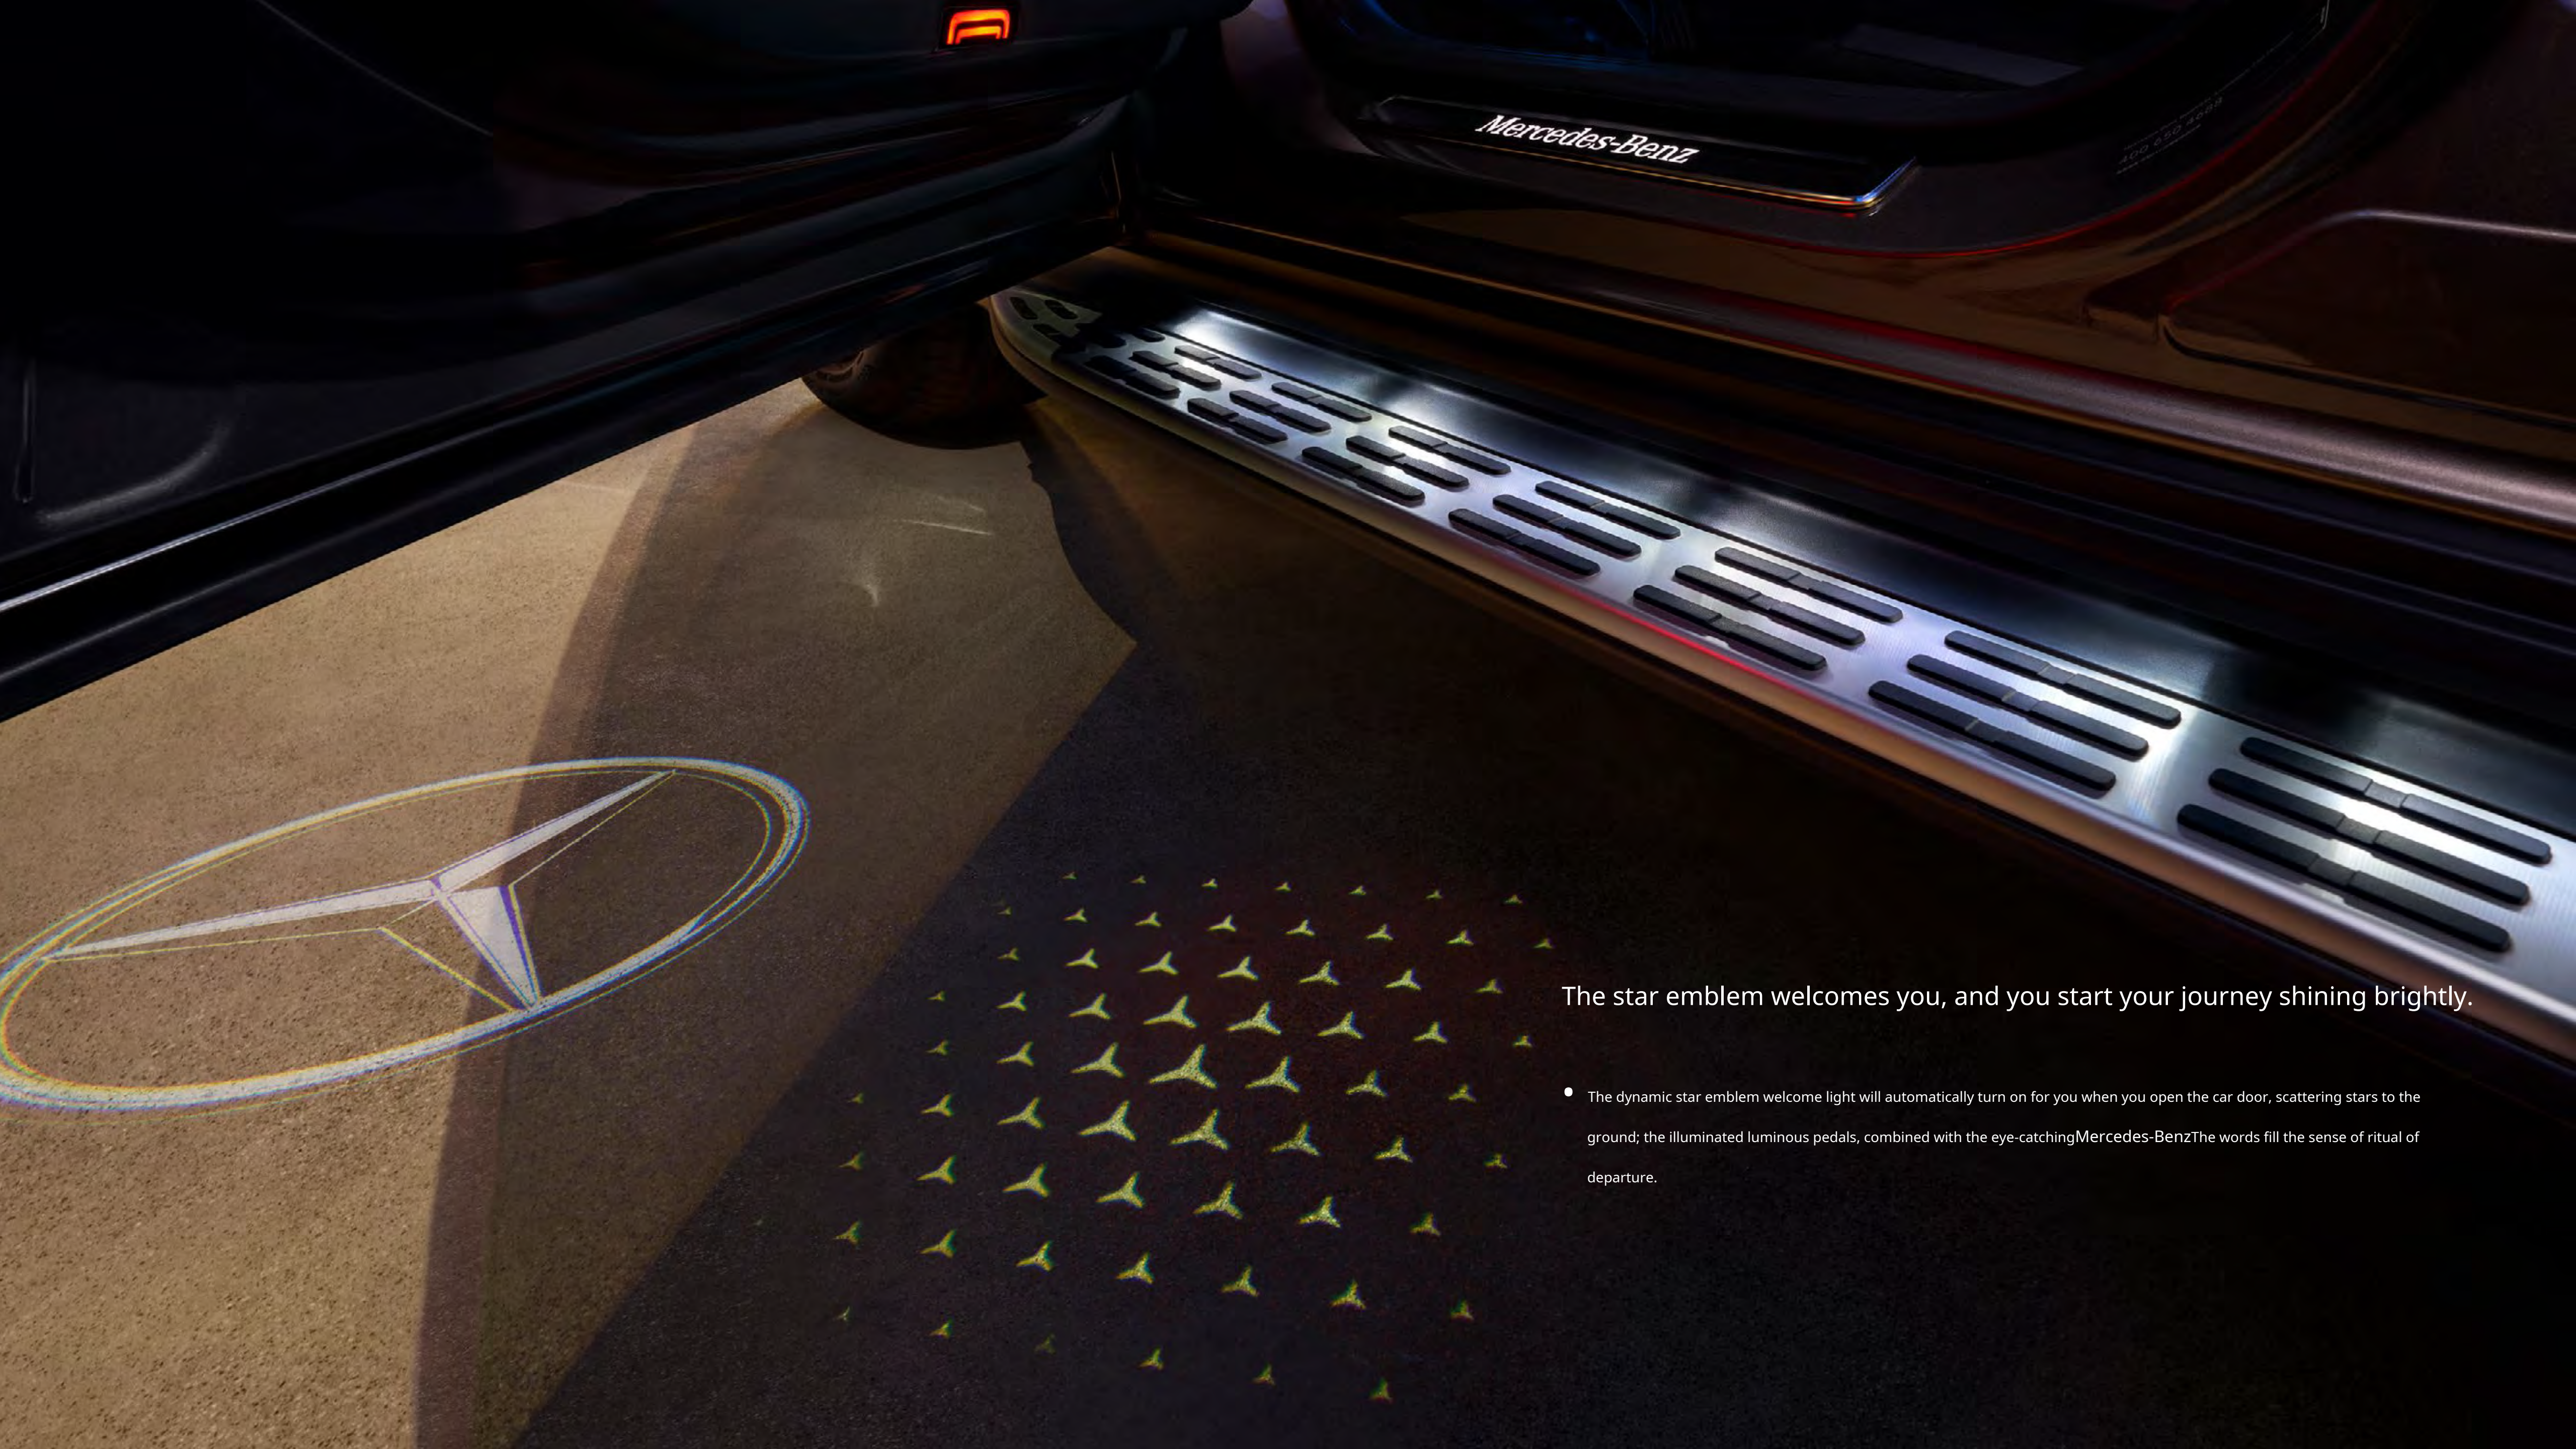

## Brilliant starlight, show your eye-catching posture

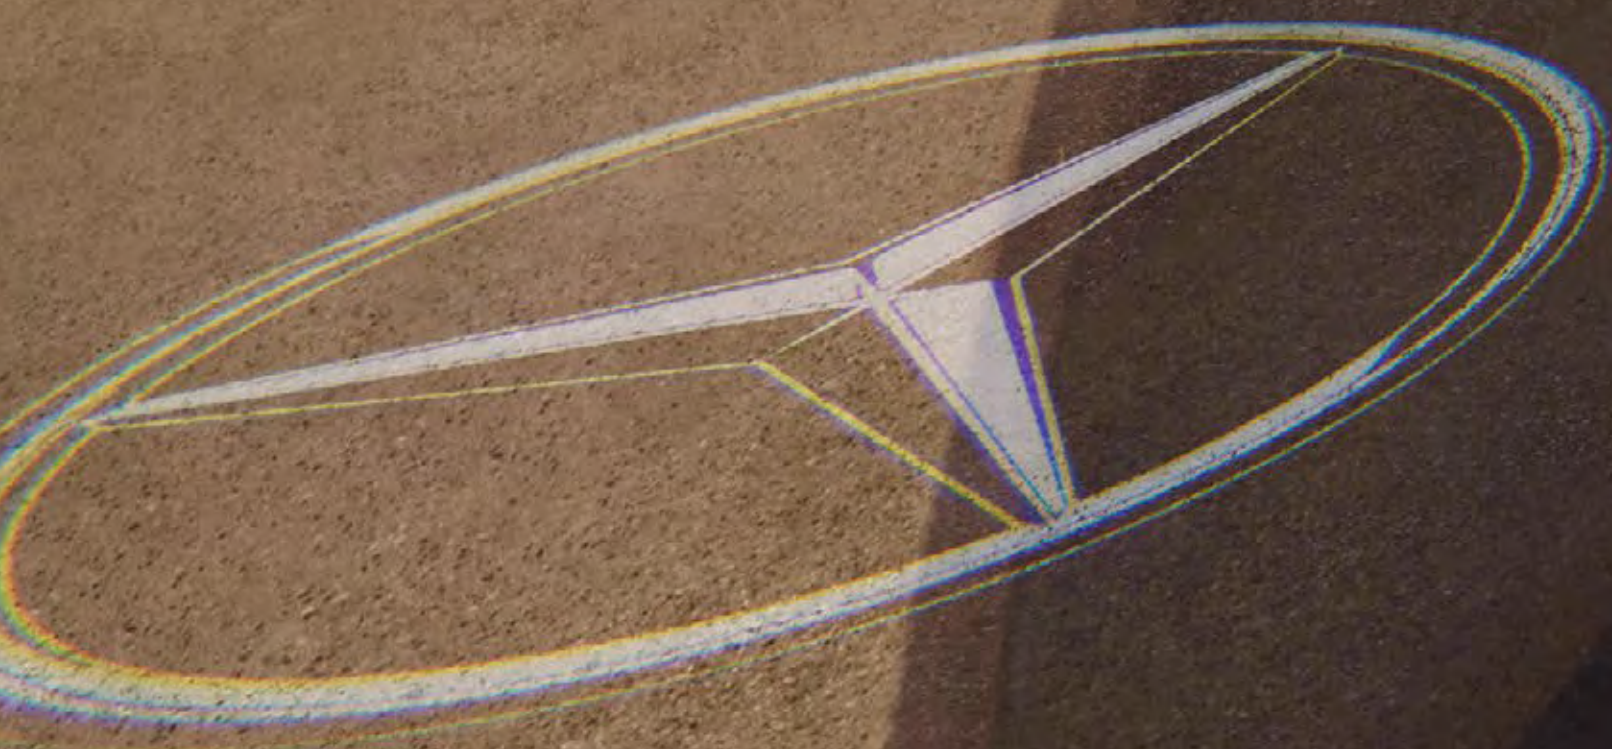

- The "Dark Night Star Array" closed grille with three-dimensional star emblems is full of exquisiteness and atmosphere in details, and each star seems to respond to you as you approach.
- When bilateral260The megapixel smart digital headlights are turned on, and the "ring of time and space" daytime running light strips also quietly light up. With the dazzling "luminous star mark", the out-of-reach dark night starry sky is also close at hand.

*Mercedes-Benz*

400 650 4688

The star emblem welcomes you, and you start your journey shining brightly.

- The dynamic star emblem welcome light will automatically turn on for you when you open the car door, scattering stars to the ground; the illuminated luminous pedals, combined with the eye-catching Mercedes-Benz The words fill the sense of ritual of departure.

## Integrated, feeling boundless inspiration

- 1.41meters longMBUXThe super-connected screen adopts an integrated curved glass design and runs from the main driver to the passenger driver;  
12.8inchesOLEDThe central touch screen uses an elegant arc to smoothly connect with the center console, creating a technological beauty for the cockpit.
- "Mind-reading sensor assistant" relies on the latest generationMBUXThe intelligent human-computer interaction system continuously learns the driver's habits and actively pushes suitable application suggestions;MBUXThe zero-level interface places commonly used functions at the top of the screen, making all core functions directly accessible with one click, creating a smart beauty for the cockpit.

Between feelings, freedom is in your heart

- NappaLeather-trimmed multifunctional sports steering wheel with fine textureNappaWrapped in leather, it brings a comfortable and soft grip, and combined with the flat bottom design, it demonstrates excellent sports performance.

Enjoy your time and enjoy the beautiful scenery

Inner strength that coexists luxury and wisdom

Understand what you want and give you what you want

While walking, let your body and mind relax

- 4.88meter body length,3.03The spacious rear space brought by the extra-long wheelbase allows you to sit easily and comfortably.

Let comfort be fulfilled in every detail

- Including rear gentleman functions, comfortable rear headrests, front-row wireless charging design to expand the visible range of mobile phone screens, etc.
- 10The exclusive configuration created for the Chinese market creates a homely atmosphere for everyone who sits down.

Breathe and experience the leisurely comfort

- "Changxin Air Shield" passedHEPAHigh-efficiency air filtration system, purifying the air more than99%of pollutants, keeping the cabin air fresh at all times.
- The four-zone smart air conditioner with air index display allows you to know whether it is hot or cold anytime, anywhere.
- The refreshing and refreshing function allows the body and mind to stretch out in comfort. Even if it takes a moment to recharge, there is also a new rest mode that allows the body and mind to be fully charged again.

Use sound waves to immerse yourself in melodious imagination

- Double-layer silent glass in the front row and vehicle acoustic package bring a quiet atmosphere.NVHPerformance, allowing you to enjoy peace and quiet.
- Mercedes-Benz's unique acoustic design team has created three interactive personalized simulated sound waves: "Silver Sound Wave", "Spiritual Flow" and "Roaring Pulse", allowing the sound to move with the shape and drive passionately.
- Burmester ®The Berlin Sound surround stereo sound system elevates the listening experience to a whole new level.

Use streamers to decorate your home court

- 64color active ambient lighting, made of 190 individual light sources, in real time according to the functions and operations you turn on, change the lighting mode and color to fit the environment.

Accommodate your thoughts and accommodate the next journey into the distance

- The large trunk space, combined with the flexibly foldable rear seats, can accommodate the life you want, and even the distance you want to travel to.

Powerful output, more exciting when charged

Pure electric driving and intelligence go hand in hand

This opens a new realm of electric luxury

## Only with high energy can you cruise proudly

- Standard dual motors and all-wheel drive system, maximum power 300 kilowatt, acceleration from 100 kilometers to as low as 5.1 seconds, you can experience the smooth feeling of pure electric driving.
- 4 An energy recovery mode achieves a perfect balance between driving experience and energy utilization.

## Control freely and control smart angles

- Rear wheel active steering system (two-way each 10 degree steering angle), so that the turning diameter is as low as 10.5m. Enjoy a smooth and smooth driving experience while driving.

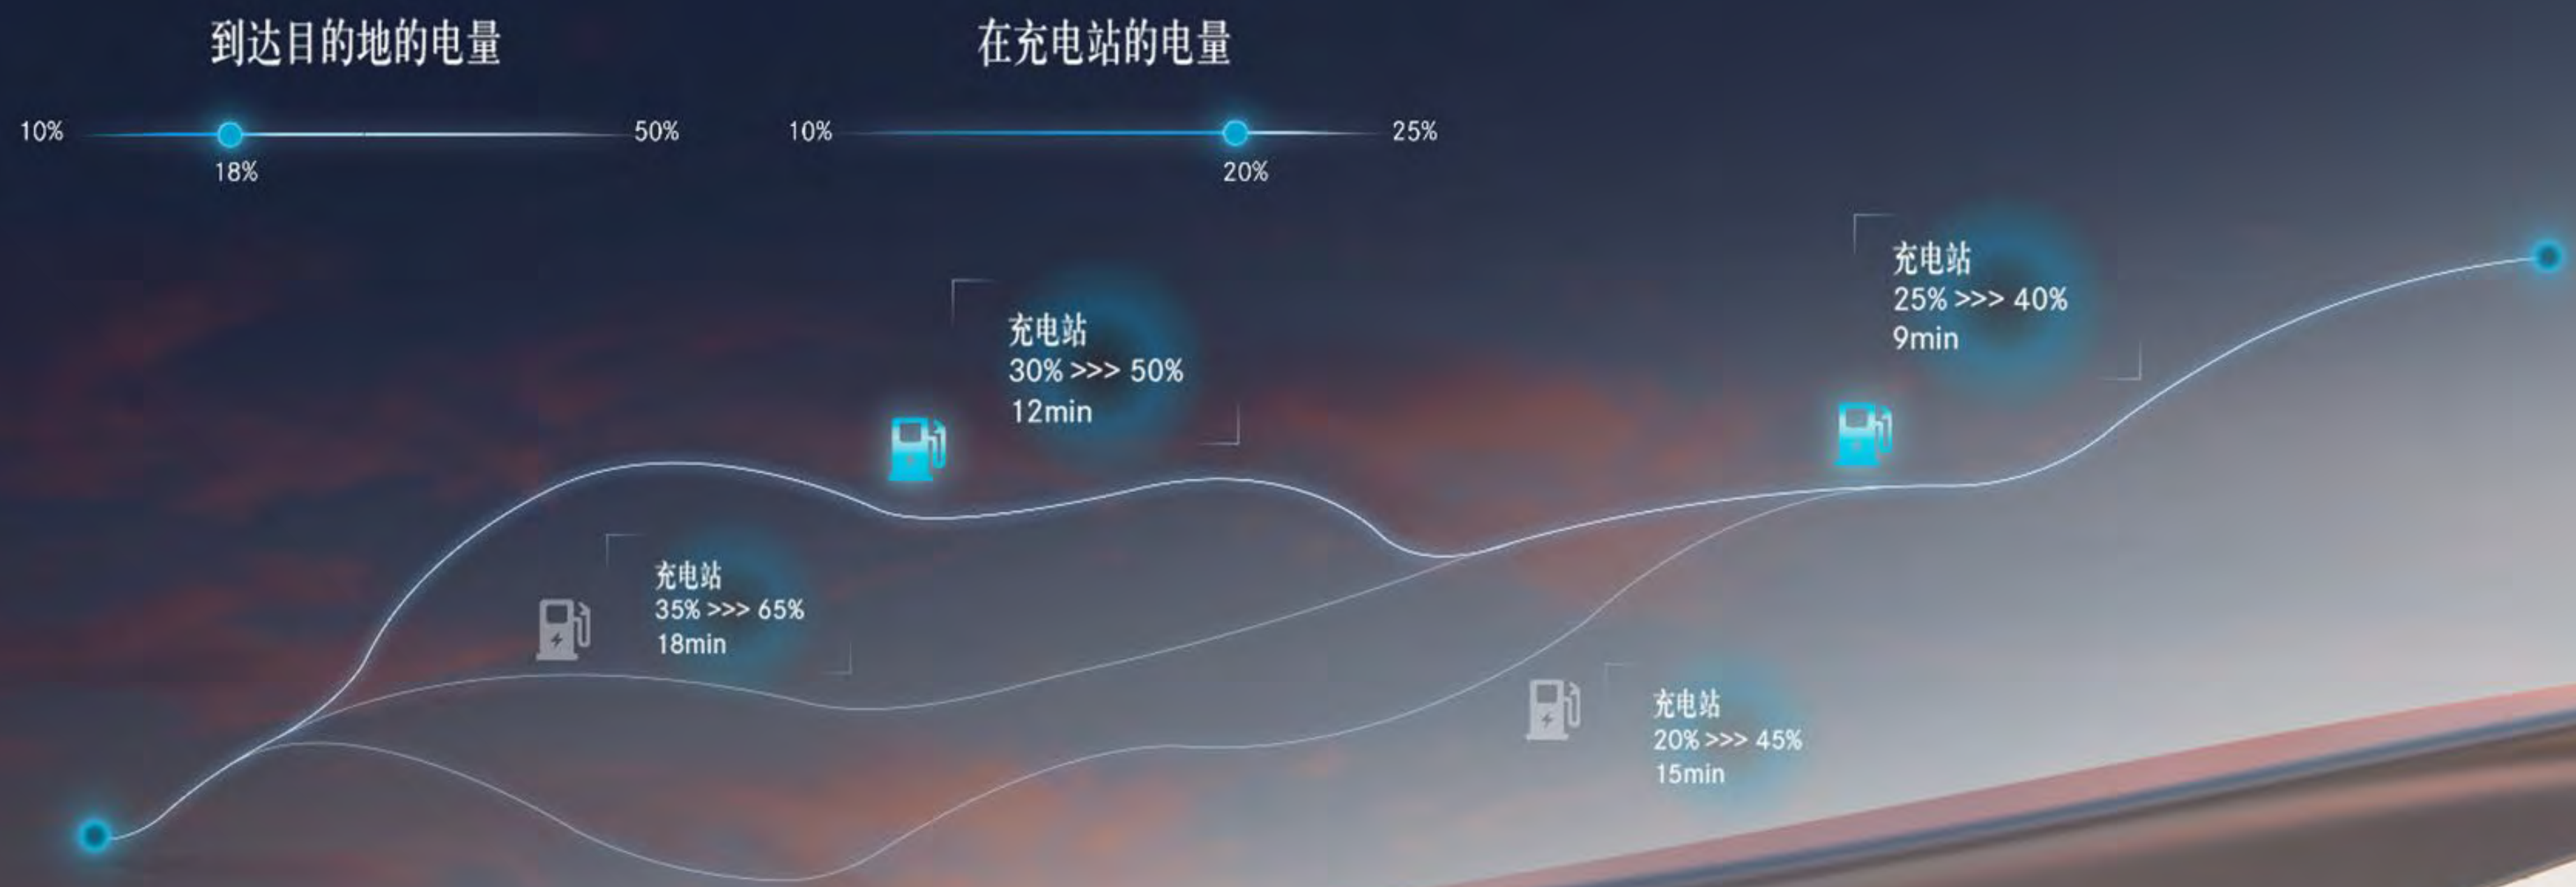

## Electric drive, see farther scenery

- brand newEQEpure electricitySUVEquipped with maximum capacity96.1The kilowatt-hour battery makes the overall power consumption per 100 kilometers as low as16.6kilowatt hours.
- up to613Accurate cruising range in kilometers (CLTCworking conditions), combined with the standard heat pump system of the entire series, bid farewell to anxiety in every electric trip.

## Smart travel makes electric travel easy and worry-free

- includeEQOptimized navigation and many otherEQThe exclusive intelligent service can plan charging points on the way based on the current cruising range, and optimize the route in real time, making it truly intelligent, electric and high-energy in everything.

# Efficient empowerment to enjoy every journey

- The continuously upgraded "Five-Star Charging Service" and public charging "Star Suiting" have been integrated18mainstream operators, covering over45Ten thousand public charging piles; branded charging "Star Station" has been deployed nationwide for nearly500charging stations, coverage143The city will protect your every pure electric trip.
- industry leadingBMSThe self-developed battery management system preheats or cools the battery as needed so that its temperature is within the efficient charging range when it reaches the charging point; the system also supports wireless updates (OTA), keeping it up to date throughout its service life.

More time for the things you love

- Just need 48 minutes, the battery can be converted from 10% to 80%. The high-speed charging rate allows you to spend more time enjoying the beauty of life.

Electric drive driving requires more safety protection

Use smart ways to open up a smooth road to control

Wherever your heart desires, go safely

Walk on sand and rocks, navigate the road ahead with wisdom

- All series come standard with intelligent timely four-wheel drive4MATIC, in the exclusive "off-road mode", not only the slope, slope and other related information are displayed on the screen, but the new "real-time off-road road image" function can display the real-time image of the road under the car, and early identify gravel and depressions, all road conditions, All in sight.
- The chassis design uses four-link front suspension and multi-link rear suspension to help you easily and smoothly cope with various complex road conditions.

## The complicated journey is clear at a glance

- AutoNavi's customized navigation provides highly integrated localized travel solutions, and uses real-life cross-navigation to display routes in high-definition in a more intuitive form, freeing you from dependence on mobile phone navigation.
- The head-up display system is like moving the display screen to the front window, allowing you to have a panoramic view of driving information and the environment in front of you. There is no need to look left and right, and information can be obtained instantly.

## Intelligent navigation protects freedom

- L2The enhanced version of the first-class driving assistance component integrates functions such as intelligent pilot range limiter, active blind spot assist, intelligent pilot steering, and active lane keeping assist system, providing you with a convenient driving experience and sufficient safety for every drive. Assure.

## Comprehensive protection for a safe and worry-free journey

- Standard for all seriesPRE-SAFE®The preventive safety system can proactively predict the occurrence of serious accidents and1 Comprehensive safety measures are quickly completed within seconds, including automatically closing windows and sunroofs, tightening seat belts, and straightening seat backs, to maximize the safety of drivers and passengers in the event of an accident.
- The standard front seat center airbags and optional rear side airbags for all series provide more thoughtful safety technology to protect your travels.

## Multiple measures to ensure a safe road ahead

- The integrated anti-collision structure frame set up around the battery pack can absorb a large amount of energy in the event of a collision, and the deformation element installed between the frame and the battery can absorb additional energy in the event of a severe side collision. In addition, the front area of the battery is equipped with a battery protective cover to prevent the energy storage unit from being punctured by foreign objects.
